Have you ever wanted to experiment with mixed-media collages to create interesting unique papers or striking art? Then this workshop is for you. In this class, you will learn how to use everyday materials, such as coffee filters, magazines, napkins and other found papers, along with a variety of household implements, to create patterns and textures on paper using acrylic paints and inks. Learn design and composition principles, as well as how to make simple image transfers with laser copies and household materials. Sharon has taught a wide variety of classes and workshops in abstract mixed media and collage in local art centers and her studio over the past 20 years. This workshop is suitable for both beginners and those with some experience in painting or collage.

All necessary materials will be provided by the instructor. A list of supplies will be provided after registration. There will be a break for lunch, which participants can bring themselves.
